

White Clay Creek State Park Proposed Tri-Valley Trail

Open House - - April 4, 2016
Comment Form

The White Clay Creek State Park Trail Plan, adopted in 2011 after extensive public outreach, addressed a future segment of the Tri-Valley Trail. Combined with other trails, the proposed Tri-Valley Trail is part of an 18-mile Greater Newark regional trail network. The Division of Parks & Recreation proposes to fill the trail system gap by constructing 2.8 miles in Possum Hill Area, White Clay Creek State Park. Other existing segments of the Tri-Valley Trail are located in New Castle County and Newark parks.

Possum Hill Area's landscape, natural and cultural resources have been evaluated. The area's constraints and opportunities have been extensively reviewed to determine trail alignment options with the least impact yet offer the greatest recreational trail benefits.

Please share observations, insights and comments on the proposed Tri-Valley Trail alignments. Comments you provide will be assessed and evaluated in finalizing trail alignment. For an online version of this comment form go to: [Tri-Valley Trail Comment Form](#)

1. How often do you use the trails in White Clay Creek State Park? (For example, every day, few times a week, weekly, few times a month, monthly, few times a year, once or twice a year)

2. What is your primary use of the existing trails – walking, running/jogging, bicycling, mountain biking, dog walking, wildlife viewing/observation, other?

3. If you do not currently use trails in White Clay Creek State Park, what would encourage you to use the trail network?

4. What trail system features do you use most often e.g. information boards, maps, trail markers, signage, interpretative panels, benches, etc.?

5. Are there trail system amenities that you would like to see added? If so, what amenities and where?

6. Please share observations, insights and comments on the proposed Tri-Valley Trail alignments.
